SPRING show of the Edmonton Agricultural Society on Saturday next, April 14th, on the race course, commencing at 2 p.m. Prizes are offered in several classes of stallions and bulls and in seed grain. The grain exhibition will be held in the town hall, the first prize exhibits to become the property of the society.

Jas. McMillan & Co.'s fur circular of April 2nd says: Furs.—The receipts have continued large. Trade to American manufacturers is very slow. Although the aggregate of our sales to them is quite large they are not free buyers, because they have stocks of manufactured furs carried over from last season, and with such slow trade those that are in the market want to buy at decidedly lower prices. Our advices from Europe are that we must expect lower prices generally.

The post office department has issued the following circular of notification: Post masters are requested to refuse hereafter to issue money orders in favor of S. H. Crompton & Co., Marshall, Mich.; H. N. Hewett, Marshall, Mich.; L. F. Page & Co., Marshall, Mich.; D. W. Slocum, New Orleans, La.; Snyder & Co., New York; E. F. Tierney, Marshall, Mich.; H. L. Visger, Syracuse, N.Y.; The Crescent Crayon Co., Chicago; The Wagner Piano Co., New York; Daniel F. Beatty, Washington, New Jersey, information having been received from the United States postal department that money orders so advised will not be paid.

A LETTER was received by last mail from L. Adamson, of Clover Bar, who has been spending the winter in Edinburgh, Scotland. Mr. Adamson was start for Edmonton on March 21st by the Parisian. He speaks of having met Mr. Osler of the Dundee Courier, and heard him lecture on Canada. He was talking good sense and had some very good notes on Edmonton. Mr. Adamson says: "The winter in Scotland has been extremely wet and stormy, and very mild, with the exception of one cold snap when for one night the thermometer went ten degrees below zero in most parts of Scotland. I have met several old friends home from Manitoba and none of them have a good word for their part. The majority of people whom I have met and talked to about our part have a very vague idea where it is, and can't understand how it is so good, after hearing all the bad reports by those who have been in Manitoba."

THE KANSAS colony who arrived on Wednesday night last are chiefly from Cloud and Washington counties in northern central Kansas. They are all farmers, some of whom have been there about 25 years. The country is clear prairie and when they went there first it yielded good crops, but of late years the rain fall has been insufficient and the crop yield has consequently been very light. Last year ten bushels of oats and twenty bushels of corn to the acre was a more than average crop. At last it became necessary to make a move and the attention of the settlers was drawn to Edmonton. Several delegates visited Edmonton last summer and reported favorably, with the result that about thirty families sold out their land and cattle, loaded their horses, farming implements, household effects and a stock of provisions on the cars and came through the trip occupying eight days. Claims had already been selected for a number of the colonists by the delegates, but many more came than claims had been selected for and these are waiting for the snow to clear off before they make their selection. The claims selected were chiefly north of St. Albert and the homesteaders have been moving out to them steadily ever since the train arrived. Judging from the many team loads of effects passing out every day the settlers must be comfortably fixed. They brought 200 horses, and some even brought oats—of very poor quality it may be remarked—to feed them on. Some of the party have their minds fixed on the Beaver lake country, but will take a good look all around before locating. Should the present season result in a favorable report being sent back from this colony a much larger number may be expected to follow next year.

E. BROSEAT, St. Albert, sold a \$39.50 lot of fur to R. Secord on Monday.

SPRING is backward in Manitoba and seeding is not expected to commence before April 20th.

THE Red Deer Review has suspended publication and the editor Mr. Murphy intends starting another paper at Innisfail.

MONDAY's mail from Ft. Saskatchewan to Edmonton did not arrive until Tuesday, having been delayed by a series of accidents.

MONDAY's train had three passenger coaches attached and they were well filled. This is why we want a passenger train on the line.

YESTERDAY's special returned south this morning taking a full train of empties, and one car of settler's effects belonging to G. H. Conier, of Glencoe, Minnesota, who decided to return home on account of illness.

PASTOR A. McDonald, of the Baptist church, preached last Lord's day evening, on the subject of "Revivals." This is the first of a series of discourses to be preached by him on the same topic, on Sunday evenings.

THE Gospel meetings in South Edmonton, held during the last three weeks, were closed on Tuesday evening. The meetings were very well attended, and have proved not only interesting, but also profitable to those who attended. Similar meetings will be held in the near future, in Edmonton.

Regina Standard: The dance at the barracks was about the only event of the week that was not announced from one of the local pulpits last Sunday evening. The list was an unusually long one, and the most retentive memory could not keep half of the events in recollection. But the slips had been placed in the minister's hand and he must read them or breed a rupture. When he got through with the announcements, he heaved a sigh of relief and solemnly gave out the text of the evening. "For what shall it profit a man if he gain the whole world and lose his own soul," upon which he preached a very able sermon.

NEW ADVERTISEMENTS.

Mrs. J. M. Ellis, the lady Phrenologist, who opens a course of Lectures in the Opera House to-night, has just finished a most successful tour of the Pacific Coast, and in every city in which she has lectured has received the most flattering notices. Mrs. Ellis has recently delivered a course of lectures in Vancouver to crowded houses and was attended by the Vancouver Phrenological Society with a most flattering address and testimonial expressing their appreciation of her ability as a lecturer and delineator of character. On Saturday afternoon, at three o'clock, there will be a private lecture to ladies on dress improvement. All interested in health, comfort and beauty in dress should hear this lecture.

## PRAIRIE FIRES.

The prairie fires ordinance which was passed at last session of the Northwest assembly, a copy of which appears in this issue, contains very sweeping provisions. It is a well-known fact that the question of prairie fires is a very important question in the Northwest and as such has received from time to time careful attention from the Northwest assembly. Every year in spring and fall the losses from prairie fires aggregate many thousands of dollars. While more legislation cannot prevent this ever recurring destruction, it is the business of the legislature to provide such machinery as can be made effective to punish those who may from time to time cause it. With this view amendments were made from time to time, aimed at the individual transgressors. But in course of time it became evident that the greatest loss from prairie fires did not arise from the acts of individuals. Along the railway lines it was found that just as soon as the grass was dry either in spring or fall it was exposed to burning by sparks or cinders from the locomotives and that every year thousands if not millions of acres were burned by fires originating from this cause. It was also found that the railway companies made no effort to prevent this devastation, and further that under the interpretation put upon the law as it stood—aimed at individuals—by the supreme court of the Territories, it was impossible to secure a conviction against the railway company. This was felt to be an intolerable condition of affairs. Hence the present ordinance which is aimed at the railway companies, with a view to compelling them to adopt such means as will prevent the scattering of sparks from the smoke stacks of their locomotives and of cinders from the furnaces as they are passing along. It is to this end particularly that the provision making it punishable to let fire pass from the property of one person to that of another is introduced, so as to cover the point under which the companies have hitherto escaped the ordinary penalties. Whether or not a new quibble can be found whereby even this provision can be made of non effect remains to be seen, but the matter is not likely to remain in doubt after the present spring if fires are started as usual by the locomotives. That this stringent provision may work hardship to individual property owners in cases in which they are in no way responsible for the fire can be easily seen. But it is often the case that some hardship must be sustained if a good end is to be accomplished; and taking for granted that the law is administered by impartial and discreet magistrates, no serious hardship will be felt. If however there does occur a serious hardship, section 8 of the ordinance may be expected to cover the case fairly well. It reads as follows: "The Lieutenant Governor-in-Council may, in a proper case, order any penalty under this ordinance to be remitted, or if paid to be refunded."

## PRAIRIE FIRE ORDINANCE.

1. Any person, company or corporation who shall either directly or indirectly, personally or through any servant, employee or agent, kindle a fire and let it run at large in any wood, prairie or open ground, not the property of such person, company or corporation, or permits any fire to pass from his own woods, prairies or grounds, or who allows any fire under his charge, custody or control, or under the charge, custody or control of any servant, employee or agent to run at large, shall on conviction thereof, be fined in a sum not less than ten dollars and not exceeding two hundred dollars, and in default of payment shall be imprisoned for any term not exceeding six months.

2. No person shall kindle a fire for the purposes of guarding any property, or for clearing land, unless he has present during the whole time of the burning six persons with proper appliances for putting out fires, or unless the fire is kindled within a ploughed break not less than ten feet wide.

3. Any person neglecting to comply with the provisions of this section shall be liable to a fine not exceeding fifty dollars.

4. One half of any fine shall be paid to the informer.

5. Nothing in this Ordinance shall bar or prevent the owner of private property from recovering damages from an offender against the first section of this Ordinance.

The London Daily Graphic of March 16th contains photos of the British delegates who visited Edmonton last fall. Messrs. Guiry, Faulks, Smith, Steven, Shelton and Fraser are easily recognizable. The reports of the delegates are to be printed in six parts, each part to include the reports of the group of delegates from a certain portion of the country for distribution in that portion more particularly. The groups are: North of England, Eastern and Midland England, Western England, Wales, Scotland and Ireland. A copy of the reports will be sent to every farmer, market gardener, and blacksmith in England, Ireland, Scotland and Wales. Hotels and inns in small towns will be supplied. Also school masters. Copies will be supplied to all who apply besides. The object of the Government in arranging the visit of the delegation and the preparation of the reports was twofold: (1) To supply independent and reliable information about Canada, with the idea of encouraging immigration; and (2) Educational, in the belief that the dissemination of pamphlets of the kind is bound to promote trade between Canada and the mother country, and to bring the two parts of the Empire closer together.

## LOCAL.

MISS MEREDITH, of Toronto, sister of Mrs. Mervyn Mackenzie, South Edmonton, arrived on Monday's train.

G. S. WILKINS, license commissioner of Red Deer, is in town to attend a meeting of the license commissioners.

MISS SEGERS, daughter of Capt. Segers and sister of Mrs. F. D. Fortin, returned from St. Paul on Monday's train.

F. C. GILCHRIST, of Qu'Appelle, fishery inspector for the Territories, who has been visiting the fishing lakes in this part of the country, has returned home.

P. ELLETT, of Yorkville, Somerset, England, a practical butter and cheese maker, arrived last week and desires to get into the dairy business in this district.

MESSES. COOKSON, of the South end of Beaver lake, are in town. The snow is all gone from the open country around the lake but it is still deep in the Beaver hills.

HIS LORDSHIP Bishop Grandin, of St. Albert, arrived at Calgary on Sunday last, returning from a long visit to Europe. He will reach Edmonton on to-night's train.

NORTHWEST election matters have commenced to boil in Red Deer district. Five rival towns are embraced within its limits and each seems anxious to secure the representation.

THE Dominion fishery regulations provide that pike, gold eye, mullet, pickerel and muskunge shall not be caught between April 15th and May 15th, and sturgeon between May 15th and July 15th.

RED DEER will have a race meeting on May 24th, at which \$200 will be offered in prizes. The events include a mile race, 1/2 mile race, 1 mile pony race and 1 mile trot, in heats, a mile dash and a mile novelty race.

J. GIFFIN, Geo. J. Henry, Chas. Clark and John Smith, hunters and trappers, arrived on Monday from the Athabasca river, where they have been trapping all winter. They bring a considerable quantity of fur.

A SPAN of horses, drawing a heavy load, broke through the ice of the river at the crossing below Fraser & Co.'s mill on Tuesday, both coming on the ice and going off it. In getting out on the north shore one of the horses was nearly drowned.

Geo. R. F. Kirkpatrick, manager of the Imperial Bank, Edmonton, returned from Ottawa by way of Toronto on Monday's train. Mr. Kirkpatrick is very confident that a sum will appear in the supplementary estimates for the bridge at Edmonton. A formal report of the work of the delegation will be presented to the town council at its next meeting.

W. O. KEAGH and C. Keogh, of Arran, Bruce Co., Ont., arrived on Monday's train to look up locations for settlement. Mr. W. O. Keagh was attracted to the Edmonton district during a visit to Ireland in the winter when he met Geo. Leary, the immigration agent of the Dominion government, there, and it was on his representations that he communicated with D. Maloney, of St. Albert, and decided to come out here. Mr. Keogh says that the bad reports received from Manitoba this year had a great effect in checking the desire to move west which is always strong in western Ontario and farmers are inclined rather to hang on where they are than to try new fields. At the same time a large party was on the same train that he came on for points in Manitoba.

MacLeod Gazette: "The young calves are coming fast on the ranges, and are revelling in the bright, warm sunshine, which for weeks past this much-favored part of the district has been blessed with. The young grass is just beginning to show itself, and will soon be distinctly visible everywhere. The cattle men are all looking supremely happy, their stock being in exceptionally fine condition, as indeed they should be after such a mild and open winter. There has practically been no loss amongst cattle on the ranges so far. The month of March, as a rule is generally boisterous, but the weather during the present month has been a continuation of the warm and spring-like weather enjoyed during the whole of the present year, therefore the ranchmen do not expect any very nasty weather from now on."

REV. FATHER MORIN arrived on Monday's train from Montreal with a party of co-ists. The following are the members of the colony: John Royer, wife and 6 children, from Bartlett, New Hampshire; Joseph Coulombe, wife and five children, and Joseph Tomsignon, from Marquette, Michigan; Henry Mercer and Renaud Charette from Benson, Minnesota; Isai Forest, Bismarck, N. Dakota; Mrs. Pigeon and 2 children from Chicago; Nancey Troumbley, wife and child, Seattle, Wash.; Wm. Shannon, Arcade Forest, Arthur Rottet, Emile Michel, Joseph Dagenais, wife and child, Montreal; Salomon Madore, wife and child, Vanburen, Maine; Chas. Bernardin and son, St. Alphonse, Man., 42 in all. Rev. Mr. Morin will remain in the Edmonton district a month and a half assisting in locating the members of the colony accompanying him and also the Kansas colony. On Monday he starts with some representative men of the Kansas colony on a tour through the region east of Beaver lake between the Saskatchewan and Battle rivers, with the intention of starting a new settlement in that as yet almost unoccupied region.

Winnipeg Tribune: The insolvency bill which is now submitted for the consideration of the Senate differs in some material respects from former Canadian acts, and also from the provisions of the English act, particularly as to the classes of debtors who can take advantage of its provisions. In previous Canadian insolvency law traders only could assign or be put into bankruptcy by their creditors. The English act, however, extends its benefits to all classes of debtors. The proposed bill provides for two classes of debtors: First, traders who are fully defined in section five, and debtors who are not traders are defined by said section. The former, that is the trader, can only assign or be placed in bankruptcy by the action of a creditor; that is, he cannot make a voluntary assignment, while the latter class, that is, the farmer, rancher, grazier or other debtor, can make a voluntary assignment and ask for relief under the act, but cannot be forced into insolvency. The reason for this distinction is to prevent any one or more creditors for placing an agriculturist or other similar debtor into bankruptcy when there might be a probability of his being able to pay his indebtedness after a good or average harvest, when if forced into bankruptcy, his farm and other property might be sacrificed and thus ruined by costs, etc.

NOTICE is given by the commissioner of Dominion lands that G. P. R. McKay has 60 days from April 6th in which to show cause why his homestead entry for the east half of section 30, township 52, range 26, west of 4th meridian, should not be cancelled.

ALTHOUGH the present spring began to open quite early it has been so changeable that now on the 12th of April it cannot be other than a late spring, as seeding cannot commence in less than a week and may be delayed for two weeks. While this delay of spring is inconvenient in some respects and may to some people, particularly new settlers and people unacquainted with the country, be discouraging, the lateness is not only no disadvantage but is a positive advantage, from a farming point of view, as we know from last year's experience as compared with other years. Last spring was very late, probably later than this will be, and yet the crop returns were much better than those of the previous year. The spring snow falls, which a new comer regards generally with a sinking heart, are what are needed to keep the ground moist until the season of growth commences sometime in May. Until that time the longer the ground lies bare of snow the dryer it gets, and the less growth is in it when the proper season comes. The more backward the season is up to that date, provided there is snow either old or new, the more moist the ground will be and the better the growth will be once it commences; and it commences about the same time every year no matter whether the snow goes early or late.

## PARRY SOUND COLONY.

A special train arrived on Wednesday afternoon at three o'clock, bringing two colonist coaches and nine cars of settlers effects from Parry Sound district, the party being conducted by D. L. Cavan C.P.R. agent. The names of the heads of the families are: Thos. McGee 2 cars effects, D. Stafford 1 car, Francis Milson 1 car, W. Wilkinson 1 car, R. Featherstone 1 car, S. Symons 1 car, Benj. Pollard 1 car, G. Atkinson 1 car. There was also a car of effects belonging to R. W. Lendrum from Vankleek Hill, Ont. The Parry Sound party left Sundridge on Wednesday, April 4th, and stopped over a day in Winnipeg, the intention being to unload the cattle there, but owing to unfavorable weather this was not done. A number of acquaintances and relatives of the party met them at the station, and others are expected in town to-day. One colonist car was retained temporarily for the use of some of the party until they can make other arrangements. The season was no further advanced when they left Parry Sound than they find it here. The snow was very deep there last winter and is still deep in the woods. Another party was expected to leave there on the 10th for Edmonton. A much larger number would have come this spring had it not been for the defamatory letters regarding Edmonton which appeared when it was too late to contradict them effectually. However Mr. Cavan believes that in the end these letters will do good, for when people there find out how untrue they are and with what object they have been circulated they will not again put faith in such stories. The party leaving Sundridge consisted of 27 families, 146 persons in all. While the larger part were for Edmonton, a family named Graham got off at Olds, L. A. Cornett and family with one car of effects stopped at Red Deer, and Messrs. Featherstone and Wilkinson returned to Leduc, where they had already selected land. Several young men got off at Innisfail, Lacombe and Wetaskiwin.
